Quality, HMS and Environmental policy

Quality policy

JBM Products as shall be seen as an open company, and it will take place an exchange of knowledge, ideas and experiences in the organization. Together we will work actively to develop and maintain a positive work environment.

We will strive to the utmost to meet customer requirements, needs, expectations and desires.

JBM Products as undertakes to fulfil the requirements of the relevant standards, laws and regulatory requirements and continually improve its quality.

We will be a preferred partner with the knowledge and good business ethics. Our quality standards apply to all employees and our suppliers. Our staff will be ambassadors for JBM Products its values and principles.

HSE policy

JBM Products as shall be a company where the employees are happy and have a good and open working environment, which promotes the exchange of ideas, skills and experiences.

Health, Safety and Security should be an integral element in the planning and execution of our activities.

We will achieve this through visible management commitment, the implementation of systematic internal control measures, risk assessments and initiatives to continually identify and reduce health hazards and environmental risks.

We will have "zero philosophy" in terms of injuries and accidents.

Environmental policy

JBM Products as committed to continuously improving the environmental system and prevent pollution.

We pledge to limit the negative impact on the environment from our activities.

We shall comply with applicable legal requirements and other requirements which the organization subscribes related to its environmental aspects.

We will have "zero philosophy" in relation to environmental damage and accidents.
